Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

You know, this change will personally affect me and my children since we rely on our trac fones to keep in touch with each other since i am a single mother raising 4 children on my own. If you increase our rates, you will be jeopardizing the only communication my children will have with me working 3 jobs. I really feel that you can come up with another solution then to raise our rates!!!! You know, ever since the economy has taken a down side since 911 everyone (meaning corportations) have to make it harder for us Americans to work harder. Well you know this is the time we are all suppose to be united. So why make my life harder than what it is!!

I am against this increase.

Best Regards,
Christine Zummo
